Hand Down Long-Awaited Opinions To-Day.

[Special to The Times-Dispatch.] Washington, May 25 .- Decisions ar expected from the Supreme Court tomorrow in the important cases affecting rights of States to enforce Statemade passenger rates on interstate Commerce Commission-made freight rates for the Intermountain States.

These cases have been pending before the Supreme Court for many months, and the pleadings are voluminous. The railroads have made a vigorous contest, and the length of time taken by the court in considering indicates the great importance.

Many of the States, through State commissions or by legislative acts, have sought to reduce passenger rates within their respective borders of all commerce. The Minnesota law was held to be invalid by the Federal court, and an appeal was taken by the State. Other cases involving the same question were joined by the Supreme Court, and the decision will cover them.

Acting for the government, Attorney-General McReynolds filed a brief upholding the Federal court decision, and denying the right of States to make rates affecting interstate commerce. He contended that the Interstate Commerce

Not to Be Enforced Yet.

[Special to The Times-Dispatch.]

Alexandria, Va., May 25.—One of the most important measures which will come before the City Council at its meeting Tuesday night will be the annual license bill which becomes operative June 1. The most important change in the bill is an increase of \$150 at year on retail liquor dealers. This increase is also effective on dealers others than those engaged in the retail traffic. The present license on retail dealers is \$150. There are forty-eight licensed saloons in the city and if this bill becomes operative it will, not the city additional revenue to the extent of \$4,800 a year.

The three Episcopal ministers of this city will not at once enforce the resolution passed by the diocesan council of the Episcopal Church of Virginia proposing that a physician's certificate from proposed benedicts showing them to be free from communicable diseases of immoral origin be required before marriage ceremony is pronounced. It is, however, expected that before long concerted action along this line will be taken by the ministers.

Since the first two arrests yesterday for violations of the new set of traffic regulations regarding the operation of vehicles in the street, the police have begun a vigorous crusade looking to the enforcement of the provisions of the new city ordinance. As a result of this about eighteen drivers of automobiles, wagons and carriages have been cited to appear in the Police Court to-morrow morning to face the charge of violating the provisions of the new ordinance. From now on the police propose to make arrests, and it is believed that before long the rules will be strictly followed out by drivers. Plans for the observance of Flag Day on June 14 next will be outlined by Alexandria Lodge of Elks at a meeting of that organization which will be held to-morrow inght when a committee will be appointed for arranging for the affair.
